
Sec. 66-421. Collection and disposal service in areas designated to use an approved container.

Garbage pickup at residences located in the city and designated to use an approved container, shall be provided garbage service under the following provisions:

- (1) Each residence covered by this section shall be required to place all garbage in the container provided or approved by the city for collection. Such containers must be behind the curb or street. In the case where there is no curb, street, or gutter, container shall be placed in an area in front of the premises nearest and most convenient to the traveled portion of the street, and the use of which will not block, hinder or obstruct, vehicular or other traffic lawfully using the street or in another location as specified by the director of public works. Where alleys provide access suitable for garbage pickup, the words "curbside" shall also mean the area in the rear of the premises most convenient to the traveled portion of the alley, the use of which will not block, hinder, or obstruct vehicular travel or other traffic lawfully using the alley.
- (2) No collection personnel shall enter any premises for the collection of garbage. Only garbage, as defined by this article, shall be placed in such container.
- (3) Containers may be placed for pickup only on the day scheduled for pickup and containers must be in place by 7:00 a.m. All containers must be removed from the street by the end of the scheduled pickup day.
- (4) Any occupant who is a full-time resident and who is disabled to the extent of being unable to move the approved container to the curb and who obtains a physician's certificate as to this disability shall not be required to place the container at the curb. The physician's certificate shall be mailed to the public works director and/or the superintendent of sanitation for appropriate notification of the pickup crews.
- (5) Garbage at residences covered under this section shall be scheduled for pickup one day each week.
- (6) The city shall provide each such residence one container at no cost. Containers that are unserviceable due to age or normal wear and tear shall be replaced by the city. Residents shall be charged for containers otherwise damaged.
- (7) Residents may purchase an additional container from the city and shall be charged for the price of the container. Any such container shall be the personal property of the resident.
- (8) Any resident placing two containers for pickup shall be charged an additional \$10.00 per month for such additional pickup.
- (9) Residences subject to this section shall pay the monthly fee for residential garbage and trash collection as set by the city. Where possible, such billing shall be provided by the waterworks serving such residences, otherwise, such residences shall be billed directly by the city.
